NCR Corporation deserve special mention for having the highest number of finishers. Points were scored according to age group place. Team runners who scored in the overall results and did not appear in the age group results scored a zero. The four best scorers (lowest numbers) from each team were added to produce the team score. This is the same scoring system that is used by the United States Corporate Athletics Association in their regional and national championships.

I apologise for the delay in producing the results. We were only able to compile accurate results for individual winners on race day due to problems in one of the finishing chutes. It took several days to recompile the full age group results to TAC standards. Thank you for your patience.

Ed Prytherch, Race Director.
